-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. The proposed reply filed on October 08, 2004 has been entered and made of record.

Election/Restrictions

2. Newly amended of nonelected claims 11-20 directed to non elected invention that is independent or distinct from the invention originally claimed for the following reasons: the original presented claims 1-10 do not require the limitations of the lead wire having a straight portion at a position connected to the magnetic switch and having terminal ends and/or fitting the terminal ends to the motor and magnet switch as required by the newly amended claims (11-20).

Further, Claims 11-20 are also directed to nonelected invention for reasons of the record (see prior Office Action paragraph 1).

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, newly amended claims 11-20 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3729

4. Claims 1, 4-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Yamamoto et al. This rejection is set forth in prior Office Action mailed on June 09, 2004.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 2 and 3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yamamoto in view of Hasegawa.

This rejection is set forth in prior Office Action mailed on June 09, 2004.

Response to Arguments

7. Applicant's arguments filed October 08, 2004 have been fully considered but they are not persuasive. Applicant argues that Yamamoto et al do not disclose the bending of the wire before the molding of inserting steps. The Examiner disagrees. Applicant refers to Yamamoto et al, especially the second and fourth embodiments, which describe the step of bending the wire before inserting steps (Figs. 2, 6, and discussion at Col. 4. lines 45-50 and Col. 5, lines 31-48). Therefore, the limitations of bending the lead wire before the molding or inserting steps are met by Yamamoto et al. Further, it is also noted that at Col. 6, lines 13-19, Yamamoto et al describe the concept as discussed above such as by the bending of the lead wire before preceding the inserting steps.

Art Unit: 3729

8. This application contains newly amended claims 11-20 drawn to nonelected invention as reasons set forth in Paragraph 2. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Donghai D. Nguyen whose telephone number is (571)-272-4566. The examiner can normally be reached on Monday-Friday (9:00-6:00).
